

## Receptra™ Relax Formulations

### Added Benefits

Relaxing sounds easy, but sometimes we all need a little help. That's why Receptra's Relax product line contains a distinct blend of ingredients formulated to meet your needs.

### Lavender

The calming benefits of lavender are well-researched for aromatherapy, which makes it a perfect complement to Receptra's Relax drops and body oil.

### Limonene Terpene

This powerful terpene can help promote calm focus and assist in regulating several of the body's most important functions such as the digestive system while enhancing antioxidant benefits.

### Passion Flower

For centuries, passion flower has been used as a natural way to quiet the overthinking brain, along with countless other soothing benefits, making it a great addition to Receptra's Relax drops.

### Arnica

Arnica Oil added to Receptra Body Oil can heal bruises more quickly, soothe inflammation, ease muscle pain, and alleviate stiffness or joint discomfort.

### MCT Oil

Bioavailability is important to receiving the most from your products. Receptra Relax Daytime Capsules contain MCT oil to ensure they are optimally utilized by the body.
